

Who are we?

We are the SIG for Math and Algorithms. Our goal is to be a community who like learning about the more theoretical side of computer science.

Everyone is welcome, regardless of what classes they have taken or what background they have. Anyone can learn this stuff and *enjoy* learning it.

Where and When?

Discord: <https://discord.gg/Sxf3h3pBbv>

In-Person: Mondays 7PM, Room 1105, Siebel Center for CS
